

LINUKA BANDARA

Software Engineering Student & Full-Stack Developer

Colombo, Sri Lanka · Open to remote & internship roles · Linukaipad@gmail.com · +94 76 457 7717

github.com/linuka7 · linkedin.com/in/linukabandara · [Portfolio](#)

PROFILE

Software engineering student who ships production-style full-stack projects end to end — from database and API design through to interface and deployment. Comfortable working directly with clients: have designed, built and deployed live systems for real businesses, not just coursework. Quick to pick up new stacks and tools on a project-by-project basis.

EDUCATION

Higher Diploma in Computing & Software Engineering

ICBT Campus, Colombo · 2025 — Present

SELECTED PROJECTS

DispatchArc — *Field-service operations platform*

- Built a full field-service workspace covering customers, job scheduling, technician assignment, quoting, invoicing and payments.
- Stack: ASP.NET Core, C#, PostgreSQL, JWT authentication, Docker. Designed the data model and REST API from scratch.

[Live demo](#) · [Source](#)

BGS AgriStock — *Agricultural inventory platform*

- Delivered a full-stack inventory system for a fertilizer and agrochemical business, replacing manual stock tracking.
- Stack: JavaScript, MySQL. Focused on stock visibility, reporting and day-to-day workflow for non-technical staff.

[Live demo](#) · [Source](#)

Suranga Gems — *Client website (live production site)*

- Designed and built a responsive brand website for a gemstone business, deployed to their live production domain.
- Stack: React, CSS. Owned the project from client brief through to launch and handover.

[Live site](#) · [Source](#)

ARK II — *Independent digital studio site*

- Built a motion-driven marketing site with custom scroll behaviour and typography-led layout.
- Stack: React, Vite, Lenis (smooth scroll), JavaScript.
